

January 2012

Dear Board of ELCSA

Thank you so much for your generous and faithful support in my different roles here at TWR-SA. As I look back at 22 years of serving with TWR this year, I praise the Lord for His faithfulness. I also thank the Lord that the ministry is growing and I thoroughly enjoy my contribution at various levels.

My current involvement with TWR

New developments in KwaZulu-Natal (KZN)

Great things happened during 2011. We have been in partnership with COM (Christian Outreach Media) for several years in KZN and last year they donated their office building in Botha's Hill to TWR to further the ministry amongst the Zulu population in the Durban area. The staff there increased from two to nine members in a relatively short period of time as the Lord provided the resources needed. Since then I was involved in the following:

- Gottfried Schiele and myself had to revamp the existing network and improved functionality between the various computers. I am now responsible for the ongoing maintenance of the system.
- As our commitment is to also continue with the literature ministry of COM, I need to rework the Zulu literature that COM provides which involves new layout of tracts and CDs as well as overseeing the printing process. My prayer is that many lives will be touched through this ministry as well.

Publications

My continued involvement in the field of publications allows me to be creative as I design our quarterly newsletters in three languages, several brochures as well as joint ventures with TWR-Africa like the project Hannah prayer calendars. These publications inform our friends about what the Lord is doing through radio. The TWR and Project Hannah prayer calendars inspire people to pray for us on a daily basis.

Database and IT

During the past few years I had the privilege of developing our new database, *Salesforce*. Many hours have gone in creating new fields to tailor make the database for the exact needs of TWR-SA as we serve our faithful friends and supporters.

I also attended advanced training as administrator and trained TWR-SA as well as TWR-Africa users.

It also took me a few months last year to write a detailed in-house manual for TWR that is now also looked at by TWR-International.

I am also responsible for any IT requirements in the TWR-SA office and work closely together with the IT Department of the Africa Regional Office in matters beyond our office.

ERF-Medien SA

Quite a few changes are taking place within ERF-Medien SA as Rudolf Kabutz moved into a new ministry area within TWR. Due to my years of experience within ERF, the leadership asked me to be more involved in various aspects of this ministry. My main responsibilities now are:

- the moderation and planning of the ERF programmes for Saturdays and Sundays
- the editing of the Aufgeweckt programmes that many listeners have followed for more than 30 years now.
- being part of the development of ERF-Medien in Namibia I will travel to this country on two occasions this year to attend their Board meetings, do presentations on the ministry and assist with technical issues
- working closely with our Director, Danie du Preez and Martin Stobwasser, helping in the ERF ministry.

Thanks again for your continued support and prayers for my involvement in various projects within TWR-SA's ministry. Your contributions are highly appreciated.
